Radically Purposeful Governance

What / Who / How

people make it work

we are culture people

What - do we need our governance to do for us?

Who - is best to that?

How - can we design practices and processes to enable everyone to be a great trustee?

WHAT	WHO	HOW
• What is needed NOW? • What does our ambition require? • What conditions are we operating in and influencing? • What are trustees best for in our mix?	• Who would be best at doing that? • What lived experience will help us make great mission focused decisions? • Who shall we give our power to?	• What practices do we need to design for and with those we need as trustees now? • How does it need to work, to enable them to be great trustees?
